Summary

I am an undergraduate student in Management Information Systems at Istanbul Medipol University, aspiring to become an AI Engineer. My focus is on Artificial Intelligence, Machine Learning, and Multi-Agent Systems, with hands-on experience in building intelligent assistants.

I am motivated to transform theoretical knowledge into practical AI solutions and eager to explore opportunities where I can apply my skills in AI engineering, backend development, and intelligent automation.

Education

İstanbul Medipol University Management Information Systems	Bachelor of Science (B.S.) İstanbul • 2023-2027
İstanbul University Computer Programming	Associate of Science (AS) İstanbul • 2025-2027

Experience

İNTELLICA Agentic ai developer - intern	İstanbul July 2026 – August 2026
Contributed to the development of a multi-agent portfolio intelligence assistant leveraging advanced AI techniques. Designed and implemented features for financial data analysis, agent collaboration, and user interaction. Focused on enhancing decision-making support through intelligent automation and scalable backend solutions. https://intellica.net/tr/	

Skills

- 🔗 **Python**
Backend development, data processing, AI model integration
- 🔗 **Agentic AI**
langgraph, CrewAI, RAG, Multi-agent orchestration, LLM pipelines
- 🔗 **Machine Learning**
Model training, evaluation, deployment
- 🔗 **Data Science**
Pandas, NumPy, Matplotlib / Seaborn, SQL

Certifications

DATA ANALYTICS İSTANBUL CHAMBER OF COMMERCE - SOFTİTO CONTENT: Python Programming, Data Visualization, Fundamentals of Business Analytics and Statistics, Unsupervised Machine Learning Algorithms, Classification-Based Supervised Learning Techniques, Regression-Based Supervised Learning Methods, Data Preparation for Analytical Processes, Hyperparameter Tuning (HPT) in Machine Learning Models	2025
